

**Maharishi Vedic Organic Agriculture Institute**  
**Field History Chart**  
**Version 3.3**

Owner/ Manager's Name:	Farm Name:	Date:
Field number (s)	# Hectares or Acres	

Please complete this chart to show the crop history for each of the fields on your farm. Fields with the same history may be combined on one form. Records should go back in time at least 3 years. List all inputs to the field(s) in each year such as manure (from off or on farm sources), compost, permitted pesticides and fertilizers, soil additives, cover crops, undersowings, or any other input to the field that may be significant to its past, present, and future organic status. Please note the organic, transitional, conventional status of the field in each year. Note: if you have owned or rented the fields for less than three years, attach a signed statement from the previous owner or renter regarding the field history and application of prohibited substances. Use additional pages as necessary.

	Crop Year 2003	Crop Year 2002	Crop Year 2001	Crop Year 2000
Status: O = organic; T = transitional, C = conventional)				
Crop(s)				
Yield/Hectare (2.471 acres = 1 hectare)				
Undersowing Or Cover Crops
