DOCUMENTATION OF NON-GMO STATUS OF SEED, PLANTING STOCK, AND/OR TRANSPLANT SOURCE

NOP Regulation §205.105 (e) – Allowed and prohibited substances, methods, and ingredients in organic production and handling, states “To be sold or labeled as “100 percent organic,” “organic,” or “made with organic (specified ingredients or food group(s)),” the product must be produced and handled without the use of” excluded methods.

‘Excluded methods’ are defined as: “A variety of methods used to genetically modify organisms or influence their growth and development by means that are not possible under natural conditions or processes and are not considered compatible with organic production.” (For a complete description of excluded methods, please refer to US 7 CFR 205 USDA NOP Final Rule.)

Date:	
I have sold to (producer):	
the following:	
Seed: <input type="checkbox"/>	Planting Stock: <input type="checkbox"/> Transplants: <input type="checkbox"/>
Crop:	
Variety:	
I attest that the seed varieties, planting stocks, and/or transplants sold to the producer identified above are not the result of genetic engineering or genetically modified organisms, as required by the USDA National Organic Program Standards. Available supporting documentation verifying the non-GMO status of the seeds, planting stocks, and/or transplants sold to the producer identified above is attached.
